

# Journey Campus

CAMBRIDGE

Journey Campus, Castle Park, Cambridge, CB3 0AT

journey

journeyre.io

journey is a property company focused on delivering flexible and fitted spaces in the UK's key knowledge economies. This allows our customers to focus on growing their core business rather than tying up capital and energy in real estate strategy.

The operational portfolio includes lab, incubator, R&D, workspace, event space and supporting amenities including residences. The goal is to create unique spaces for our customers and to promote well-being and ESG.

The platform will be connected by a digital interface providing communication, clubs, and events to create a member community.

journey has an experienced management team that understands the importance of listening and reacting to customer requirements. This is especially important for fast growing companies that have dynamic and evolving space requirements.

Journey Campus is an innovation estate within walking distance of the West Cambridge science cluster and a short walk from the historic city core.

The campus plays host to several multinational tech companies, as well as a number of professional service providers focused on the knowledge economy.

A phased refurbishment is planned to enhance the appearance of the campus while complimenting the heritage of the local area. With sustainability at the forefront, having regard to the embodied carbon in the existing buildings, the campus will also see significant improvements to the external landscaping & amenity, ensuring both customers and the public alike benefit from the improvements.
